ZONING COMMITTEE REPORT

1. 210 North 21st Street (Old Please Touch Museum) – Construction continues.
 2. 60 N. 23rd Street – On February 14, 2017, the LSNA Board voted to approve a letter of non-opposition to the extension of the ordinance which expired December 31, 2016. The letter of non-opposition is contingent upon an executed Neighborhood Development Agreement prior to the final passage of the ordinance extension in City Council. The LSNA Board will be asked to approve funds for an independent review of the traffic study provided by PMC.
 3. 1816 Callowhill Street- The ZBA hearing on this matter was postponed until April 26, 2017 at the request of the attorney for the applicant.
 4. 1800 Arch Street (Street Kiosks)-On February 14, 2017 voted to approve a letter of non-opposition to the ordinance to permit proposed kiosks. The letter of non-opposition is contingent upon the ordinance prohibiting the applicant proposed LED screens.
 5. 1600 Callowhill Street-The attorney for the applicant planned to request an ordinance rezoning this parcel to CMX 5 in order to allow applicant to build the presented addition as of right. At the request of the LSNA President, Drew Murray, the attorney withdrew the request and will instead request a variance for the addition. The applicant will return to present to the LSNA through the RCO process.
 6. 2005 Market Street-The LSNA Board voted to approve a letter of non-opposition for the legalization of the outdoor patio. The ZBA has approved the application.
 7. 1501 JFK Blvd (Love Park)- At the March 14, 2017 Board meeting, the attorney for the applicant will present a plan for a pedestrian entrance/head house to the parking garage located under Love Park.
 8. The Dalian-Members of the LSNA Zoning Committee and the Planning & Design Committee met with representatives from the Dalian and the Rodin Group to discuss the lack of trees on the development. A second meeting will be held which will include representatives from Whole Foods.

PLANNING & DESIGN COMMITTEE REPORT

March 1 / Tivoli Community Rm.

Discussion Summary:

1. **1501 JFK Blvd – Love Park**, erection of a flat-wall sign (painted glass rain-screen) on the front of existing parking garage head house. The sign requires a special exception to allow the proposed 512sf sign which exceeds the allowable area. The design has been approved by the Art Commission and is generally well considered by the committee. However, there are questions about it being listed “non-accessory”, it’s illumination if any, and how the head house will address security. Below are responses from applicant regarding question of additional signage and “non-accessory” designation.
 - The north façade graphic is the only exterior facing sign included with the Headhouse project. The graphic was developed in collaboration with the park design and was presented to the Art Commission as one concept. No additional signs, including building wraps, are anticipated or desired.

- I believe the sign is considered non-accessory under the Code because the primary use of the property is a public park. The underground parking garage is therefore an existing non-accessory use. Because the sign is connected to the garage, and not the park, it is a non-accessory sign. To be clear, the sign is designed as a permanent installation, fully integrated into the glass headhouse structure currently under construction. So any alteration to the sign would require complete removal and reconstruction of the glass panels. Also, as I read Section 14-904(4)(b), any change to the sign would require approval from the Art Commission.

2. Winter Street Greenway

Public meeting at 7PM on April 6 at The Franklin Institute where initial concept designs will be presented for neighborhood comments.

3. Next PDC Meeting

The next PDC meeting will be Wed., April 5th in the Tivoli's community room.
